

LEDGER PANELS

LEDGER PANELS

Sandstone, Slate, Granite

- We are pleased to present our collection of Sandstone, Slate, and Granite ledger panels. These natural stone veneers are ideal for fostering a serene environment, making them appropriate for various applications. They are recognized for enhancing texture and architectural interest in any setting.
- Sandstone provides a warm and adaptable aesthetic, while Slate showcases a diverse palette of colors. Granite offers two distinct styles: a sleek, modern appearance and a more pronounced, robust look exemplified by the Tiger Skin Yellow Granite.
- Our ledger panels are primarily available in standard dimensions of 6 inches by 24 inches, complemented by matching Dogear corners in sizes of 6 inches by 6 inches and 6 inches by 18 inches. Furthermore, select materials can be obtained in special sizes of 8 inches by 18 inches and 8 inches by 24 inches, allowing for greater design flexibility.
- These versatile options are suitable for both exterior and interior uses, including facades, fireplaces, feature walls, and landscaping projects.
- Marketing displays include a metal landscape display showcasing fourteen 12X24 ledger panel display boards, 3X6 cut samples, library boards, and a catalog.
