Discover the Art of Natural Stone Trims

Natural Stone Trims are an essential yet often overlooked detail in architectural and interior design. From chair rails and liners to baseboards and thresholds, trims bring structure, continuity, and refined detail to any space.

At NSR, we offer a comprehensive collection of trims crafted from a wide range of natural stones, including marble, travertine, limestone, and more.

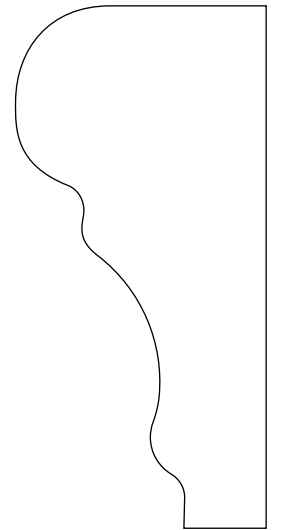

Most are available in honed or polished finishes, allowing you to match any design style. Our trims come in various profiles and sizes, offering the flexibility to create clean transitions, define spaces, and elevate the overall aesthetic of your project.

More than just functional elements, natural stone trims are a mark of craftsmanship, bringing harmony, balance, and sophistication to every surface they touch.

F5 Grand Chair Rails

2" X 12" X 1"

A bold take on a timeless profile, the F5 Grand Chair Rail adds depth and architectural presence to any space. With its larger scale and sculpted form, it brings classical character with a fresh edge ideal for residential feature walls and refined interiors.

F1 Classic Chair Rail

2" X 12" X 1"

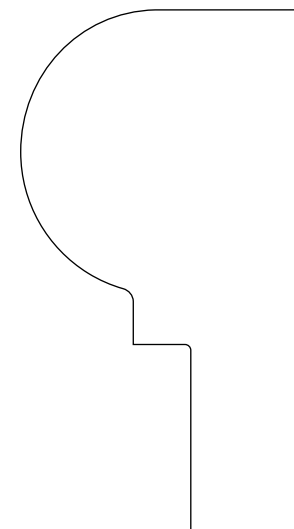

With its softly rounded top and streamlined profile, the F1 Classic Chair Rail offers a clean, balanced look that works across a wide range of interiors. More linear than the sculpted F5, it's the standard trim for all our Travertine chair rails timeless, versatile, and easy to pair.

Standard Chair Rail

2" X 12" X 1-1/8"

The Standard Chair Rail features an elongated curved profile that creates a smooth, fluid transition between surfaces. Its gentle contour highlights the natural texture and color of the stone, adding a sense of refinement and cohesion to any space. Commonly used across our Slate and Quartzite collections, it offers a timeless finishing detail that enhances the character of natural stone installations.
