

ANTIGO LIMESTONE

ANTIGO LIMESTONE

- The Antigo Distressed Limestone collection celebrates the natural beauty and quiet sophistication of Portuguese limestone. Carefully curated, each material reflects a sense of authenticity, with formats offered in 8x16, 16x24, and Versailles Pattern Set, all in 5/8” thickness and a consistent distressed finish.

- Each selection is defined by the inherent character of natural stone subtle shifts in tone, fossil markings, veining, and organic movement that bring depth and individuality to every surface. These qualities are not imperfections, but the essence of what makes each installation unique.

- The term “Blend” describes the natural composition of each material, which may combine multiple limestone selections to achieve either a softly varied or more uniform visual expression, depending on the stone.

- The distressed finish enhances the stone’s aged, time-worn quality, softening edges and enriching surface texture to create a look that feels both refined and naturally evolved.

- As with all natural limestone, variation is expected and embraced. Each piece contributes to a larger composition, best appreciated when materials are blended during installation to achieve balance and visual harmony.

- NSR’s marketing materials include 24x24 display boards, 7x14 ID cards showcasing all blends, 4x6 samples, and a catalog.
