
TUMBLED TILE

TUMBLED TILE

2X8, 4X4, 12X12, 18X18

NSR’s Tumbled Tile Collection features marble, travertine, limestone, and sandstone selected for their distinctive color, movement, and beautifully aged appearance. Offered in a range of formats, the collection brings an understated sense of history and ease to residential and commercial settings.

- The tumbling process softens the face and edges of each tile, creating a gently worn finish reminiscent of stone that has aged over time.
- Its relaxed appearance works across a wide range of design styles, from old-world and Mediterranean interiors to clean, modern environments.
- Multiple sizes allow for flexible layouts, whether used as a single format or combined to create more layered and dimensional installations.
- Because each piece is cut from genuine stone, differences in tone, veining, surface markings, chips, and edge detail are expected and make every installation unique.
- Equally suited to floors and walls, the collection works beautifully in entryways, kitchens, baths, living areas, patios, and other interior or exterior applications.
- Classic layouts such as checkerboard patterns feel especially at home in a tumbled finish, while simple grid and running-bond arrangements offer a more contemporary expression.
