
AVORA
Custom Mosaic Design Program

AVORA CUSTOM MOSAIC DESIGN PROGRAM

A Guide to the Custom Mosaic Process

The AVORA Custom Mosaic Design Program provides a clear, guided approach to creating distinctive recycled glass mosaics tailored to each project.

Explore the possibilities by choosing the glass type, level of customization, mosaic shape, color palette, and design approach that best support the project vision.

From initial selections and design development through rendering, approval, and production, AVORA guides the process every step of the way. AVORA guides each project from concept development through production.

Versatile Performance

AVORA glass mosaics are engineered for durability across a wide range of applications:

- Environments: Indoor and outdoor settings.
- Conditions: Wet and dry areas, including pools and fully submerged applications.
- Sectors: Residential and commercial spaces, including heavy-traffic flooring.

Sustainability & Material

AVORA is manufactured with a strict commitment to environmental responsibility:

Composition

- Glass Tiles: Made from 98% pre-consumer recycled glass.
- Backing: Composed of 96% pre-consumer recycled material (mesh and adhesive).

Health and Safety

- Non-Toxic: Lead-free with no VOC off-gassing.
- Production Process: Manufactured by grinding recycled glass into a fine powder and forming tiles under high pressure and heat.

BASIC CUSTOM DESIGN PROCESS

GLASS FINISH SELECTION

MATTE RECYCLED GLASS

Cast recycled glass mosaic, with smooth edges.

MATTE RECTIFIED RECYCLED GLASS

A near-perfect straight edge, with a flat surface.

Design with confidence using a curated collection of 60 mosaic shapes and 129 recycled glass colors.

CUSTOM PATTERN DESIGN

Create an original mosaic pattern by selecting your preferred shape and color palette, then developing a layout unique to your project.

Sheet templates for each mosaic shape are provided **at the end of this guide** and are also available digitally through the **AVORA COLOR STUDIO** link below.
Select and print the appropriate template, illustrate your design intent, and clearly identify each color and its placement within the pattern.

Once your design is submitted, AVORA will prepare a rendering for review to confirm color placement, chip size, pattern repeat, and overall layout before final approval.

CUSTOM MURALS & LETTERING

Bring original artwork, imagery, and lettering to life in recycled glass.

Provide your design intent, artwork, inspiration images, or visual references, along with the required dimensions, to establish the creative direction.

Explore the unique characteristics of Pixel and Artistic Mosaic techniques to select the approach that best supports your desired aesthetic and level of detail. Upon receipt of your design information, NSR will develop a custom rendering to verify the design intent and obtain your approval before production begins.

PIXEL

Structured. Precise. Graphic

Pixel Mosaic uses recycled glass pieces of the same shape and size, with the image created through color placement and arrangement.

Best suited for:

- Logos
- Clean, structured visuals
- Detailed images requiring precise color placement

The final image is created through consistent mosaic geometry and controlled color positioning.

ARTISTIC

Organic. Detailed. Expressive.

Artistic Mosaic uses individually shaped recycled glass pieces, allowing the composition to be defined by the shape and placement of each piece.

Best suited for:

- Intricate patterns
- Curves
- Organic compositions

This technique allows greater artistic expression through variation in piece shape and placement.

PROJECT REQUIREMENTS & PRODUCTION

Before production begins:

Required

- Recycled Glass type selection
- Shape selection
- Color(s) selection
- Existing pattern selection if applicable
- New pattern submittal
- Sheet size will be decided by the factory when applicable.
- Design intent, artwork, inspirational image, visual references.
- Dimensions if applicable.
- Send your completed request to csr@nsrstone.com for pricing and lead times.

Design Development

- Rendering Review
- Design Approval
- Special Order Release Form

Production & Policy Guidelines

- Minimum Order Quantity (MOQ): 50 sq. ft. per shape and color.
- Solid colors and patterns must be ordered in 10-sheet increments.
- All orders are fulfilled in full 10-sheet box quantities and will be rounded up to the next full box to ensure sufficient material for installation.

Custom Project Lead Time

- 90 – 120 days (Ocean Freight)
- Air Freight: Optional. Quoted on a case-by-case basis.
- Chinese New Year: February 6th
- Production Order Deadline: November 25th
- To ensure orders are produced, packed, and shipped before to the factory's Chinese New Year closure, all production orders must be submitted by November 25th.
- Orders received after November 25th will be accepted; however, production will not begin until the factory resumes operations on March 1st.
