
TUMBLED TILE

TUMBLED TILE COLLECTION

2X8, 4X4, 12X12, 18X18

NSR's Tumbled Tile Collection features marble, travertine, limestone, and sandstone selected for their distinctive color, movement, and beautifully aged appearance. Offered in a range of formats, the collection brings an understated sense of history and ease to residential and commercial settings.

- The tumbling process softens the face and edges of each tile, creating a gently worn finish reminiscent of stone that has aged over time.
- Its relaxed appearance works across a wide range of design styles, from old-world and Mediterranean interiors to clean, modern environments.
- Multiple sizes allow for flexible layouts, whether used as a single format or combined to create more layered and dimensional installations.
- Because each piece is cut from genuine stone, differences in tone, veining, surface markings, chips, and edge detail are expected and make every installation unique.
- Equally suited to floors and walls, the collection works beautifully in entryways, kitchens, baths, living areas, patios, and other interior or exterior applications.
- Classic layouts such as checkerboard patterns feel especially at home in a tumbled finish, while simple grid and running-bond arrangements offer a more contemporary expression.

APPLICATIONS

Suitable for commercial and residential use, including interior and exterior floors and walls. Appropriate for wet areas when properly installed and sealed.
